National Defence is committed to open, transparent, and timely communication with Canadians. Through its various social media platforms, National Defence is able to share information in an accessible and widely-used manner.

National Defence has over 466 social media accounts and does not centrally track content removal requests and interactions with social media companies. Providing the requested information would require a manual search of accounts which could not be completed within the allotted time.

PORTFOLIO AGENCIES

The response of the Military Grievances External Review Committee, the Military Police Complaints Commission, Communications Security Establishment, and the Department of National Defence and Canadian Armed Forces Ombudsman is nil.

Le ministère de la Défense nationale (MDN) est déterminé à avoir des communications ouvertes, transparentes et rapides avec les Canadiens. À l'aide de ses divers comptes de médias sociaux, le MDN est en mesure de communiquer de l'information de manière accessible et avec des moyens de communication largement utilisés.

Le MDN possède plus de 466 comptes de médias sociaux. De plus, il n'assure aucun suivi centralisé quant aux demandes de retrait de contenu et aux interactions avec les entreprises dans le domaine des médias sociaux. La communication des renseignements demandés exigerait une recherche manuelle parmi ces comptes, opération qui ne pourrait pas être effectuée dans le délai accordé.

ESDC media team flagged 10 different posts between January 1, 2019 and December 3, 2021. Each involved an individual expressing self-harm. In each case the platform (LinkedIn or Twitter) removed the post. Because of the personal nature of these interactions, user names were not retained. The ESDC social media team manages all other social media channels under the ESDC portfolio; however, it does not interact with social media companies directly. The requested information can be found in the attached annex.

Emploi et Développement social Canada (EDSC)

L'équipe des médias sociaux d'EDSC a signalé 10 messages différents entre le 1er janvier 2019 et le 3 décembre 2021. Chacun d'entre eux impliquait un individu exprimant l'automutilation. Dans chaque cas, la plateforme (LinkedIn ou Twitter) a supprimé la publication. En raison de la nature personnelle de ces interactions, les noms d'utilisateurs n'ont pas été conservés. L'équipe des médias sociaux d'EDSC gère tous les autres canaux de médias sociaux relevant du portefeuille du EDSC ; toutefois, elle n'interagit pas directement avec les entreprises de médias sociaux. Les informations demandées se trouvent dans l'annexe ci-jointe.
